PORTABLE EVAPORATIVE COOLER 750W

1035T

240V/50Hz/750W 3 speed motor
Max. air flow: 23,000 m3 per hour
Water consumption: 12-18 ltr. per hour
Effective cooling area: 150-200sqm
Water tank capacity: 130 Litres
1730H x 1120W x 680Dmm
Weight: 63kg

Remote
Control
Timer
Panel

FEATURES

One-piece moulded polyethylene housing will not crack and is rust and leak proof.
Environmentally-friendly alternative to traditional reverse cycle A/C.
Cools without chemicals or refrigerants.
Long-term dependability, near maintenance-free operation.
European design synchronous swing function.
Cools where traditional cooling methods are impractical or cost prohibitive.
Easy to read water level sight tube gauge.
Dual pour in refill water inlet and/or 3/4" hose fitting for automatic tap refill.
Adjustable water flow and drain valve.
Direct drive. LCD 24hour timer panel.
Nylon castors for easy portability.
Remote control speed adjustment.

TRADEQUIP INDUSTRIAL AIR CONDITIONERS FEATURES & BENEFITS
Compact yet powerful. Wide operating range of 18° - 45°C.
Single duct system for easy installation. Capillary tube construction for simplicity.
5 Litre self-contained condensation tank for easy removal and emptying.
Heavy duty compressor with automatic restart and short cycle protection.
Motors and compressors have overload protection.
Durable and long lasting steel construction.
Heavy duty locking castors and handles for easy manoeuvrability.
Easy to use plug in and place the hot air duct out of window/door or into false ceiling.

INDUSTRIAL PEDESTAL FAN 750mm

1015 TRADEQUIP
240V/50Hz/280W 3 speed motor
750mm aluminium 3 blade fan
Adjustable height: 1235-1760mm
(Blade centre)
0° to 90° oscillating angle or fixed
Air flow: Up to 300m³/min

280 Watts

Cast aluminium blade

Chrome steel cage

Cast iron heavy duty base for stability

Excludes GST
\$199
Inc. GST \$218.90

FEATURES
Rugged and dependable Direct drive motor requires less power and less maintenance compared to other motors.
Durable all-metal construction with black finish, chromium (finger safe) steel grille.
Aerodynamically balanced 3 spoke aluminum blades for maximum airflow and motor efficiency.
Adjustable tilt to direct air where you need it.
Cast Iron heavy duty base for stability.
Metal oscillating gears.

INDUSTRIAL PORTABLE FLOOR FAN 450mm

1045 TRADEQUIP
240V/50Hz/220W 3 speed motor
450mm steel 3 blade fan
Adjustable flow angle
Air flow: 142sqm per min
Noise level: 69dB(A)

220 Watts

Chrome steel cage

Excludes GST
\$149
Inc. GST \$163.90

FEATURES
The enclosed direct drive motor is protected from dust and debris to provide years of reliable service.
The 3-speed switch gives you control over the airflow, and vertical tilt helps you control angle. Solid metal construction with durable steel blades.

Incl. GST	\$273.90	\$808.50	\$955.90

FEATURES
These TradeQuip "Made for the Trade" Industrial Ventilator Fans air out rooms, circulate air or dry wet areas with a powerful air output of 60m³ per minute. Features include an ergonomic handle for effortless transport and an aluminium blade with steel housing construction for long lasting durable performance. Complete with 5 metre flexible ducting.

WARNING: NOT INTENDED FOR DUST EXTRACTION

INDUSTRIAL PEDESTAL MISTING FAN 650mm

1182T TRADEQUIP
240V/50Hz/230W 3 speed motor
90° Oscillation
Water shortage protection.
Drop the temperature: 2-8°C
Adjustable mist-Exit Vol: 0-16KG/Hr
Effective spray distance: 8-10mtr
Suitable for cooling people, stockbreeding or greenhouse applications.

230 Watts

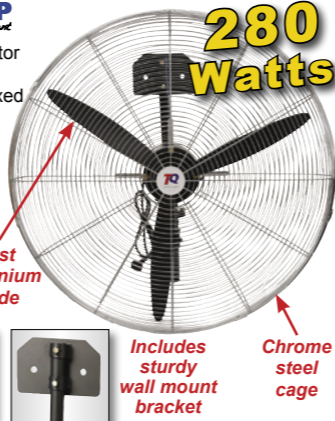

Excludes GST
\$549
Inc. GST \$603.90

FEATURES
Great for workshops and factory floor areas. Adjustable height to 1.8m and 3 speed operation.
Large water storage tank & integrated water reservoir.
No mess drip water collector.
Heavy duty base for safety and stability.
Low pressure water pump for reliability and longevity.
Automatic shut-off when water tank is empty.

INDUSTRIAL WALL MOUNTED FAN 750mm

1026 TRADEQUIP
240V/50Hz/280W 3 speed motor
750mm cast alloy 3 blade fan
0° to 90° oscillating angle or fixed
Air flow: Up to 300m³/min
Noise level: 86dB(A)

280 Watts

Cast aluminium blade

Includes sturdy wall mount bracket
Chrome steel cage

Constructed of high-grade steel and built to exacting standards for quality and durability.
Lead-free paint finish is oil, grease and dirt-resistant for easy cleanup.
High quality hydraulic steel cylinder unit helps to reduce wear and extend service life.
Piston-ram is treated and polished.
Hydraulics are powered with a high quality oil, which offers better corrosion resistance and high/low temperature flexibility.
Heavy walled extension tubes stand up in tough applications.

AIR/HYDRAULIC PUMP

2054T TRADEQUIP
The trusted brand in equipment

Maximum output pressure: 10,000psi
Usable hydraulic fluid capacity: 2.25 Litres
Operating air pressure: 90-145 psi
Air consumption: 7.5CFM @ 100 psi
Oil delivery with No Load: 49.5 cu.in/min
Oil delivery with Load: 7.6 cu.in/min
Input (Air) port thread: 1/4" -18 NPT
Output (Oil) port thread: 3/8" -18 NPT

HANDS FREE POWER

MADE FOR THE TRADE

Excludes GST
\$699

Inc. GST \$768.90

FEATURES

Durable light-weight corrosion-free aluminium.
Built-in overload system prevents pump from being used beyond its safety capacity.
Ergonomic hand/foot activation lever.
Air/oil filters minimise contaminants in hydraulic system.
Perfect for porta power rams & bead breakers.
Compact design fits in truck storage boxes.
Air exhaust muffler for quiet operation.

COMBI PORTABLE BEAD BREAKER 5,000KG

BTBB05 BORUM
INDUSTRIAL WORKSHOP EQUIPMENT

Working load limit: 5,000kg
Pressure connection: 3/8"-18NPTF
Rated pressure: 10,000psi
Maximum rim size: 26"
Suits 1,2 & 3 pce rims (up to 26") with pry bar / bead loosening pockets
Ram stroke: 90mm

FEATURES

Durable steel construction.
Clamps to wheel rim & breaks bead simply with up to 5,000kg of force.
Requires 10,000psi air/hydraulic pump (sold separately).

Suits TradeQuip 2054T & 2054-H

MOBILE BLASTING UNIT 105 LITRE CAPACITY

MADE FOR THE TRADE

3033T **TRADEQUIP**
The trusted brand in equipment

Tank capacity: 105 Litre
Working pressure: 15CFM @ 80psi
Air delivery: 640 Ltr p/min. @ 115psi
Ceramic nozzle tips: Size 7mm
Air hose: 170D x 91D x 2700mm
Sand hose: 180D x 121D x 3100mm
Vacuum hose: 480D x 421D x 2600mm
Wheels: Castor 4" / Fixed 6"
Weight: 30kg

FEATURES

Ideal for surface preparation on cars, trucks, machinery, steel, glass etching & much more. The Vacuum feature reduces dust and debris around your workshop. Durable wheels & built-in handle allow for easy transport. Simply add abrasive and hook up to an air and power supply and you're ready to blast.

BLASTING MEDIA ABRASIVE

TradeQuip "Made for the Trade" Blasting Media Abrasives are designed for use in conjunction with our TradeQuip Mobile Blasting Kits and Blasting Cabinets. Abrasive blasting has been used for many years to clean and remove rust, paint and corrosion. There are many types of abrasive media available, the most common being Garnet, Steel Grit and Glass Bead. These media have an aggressive cut and can rapidly remove paint and rust. However, they can also generate significant heat, potentially resulting in warped metal and etched surfaces, and they cannot be used on fiberglass. Also, chrome, plastic, rubber, trim, and other parts must be removed from a work surface or masked-off before blasting. Alternatively, less-aggressive media, such as Walnut Shell, will do a great job at removing paint. Walnut Shell does not generate as much heat as other media, and can be used on sheet metal and fiberglass without damaging the base material. However, Walnut Shell as with any abrasive media, will require more clean-up as it leaves particles in the car body's seams and crevices that can be difficult to completely remove. Soda blasting media has non abrasive properties which makes it a very universal blasting media which can be applied to lighter materials such as aluminium, plastic, fiberglass, wood etc. Soda Blasting does not damage glass, rubber, chrome items if they are left on a vehicle for blasting.

GARNET 25KG MEDIUM 30/60 3020T

Garnet is a gemstone with excellent naturally abrasive properties. This hard abrasive is fast-cutting, low-dust producing and low-consuming, excellent for removing tough coatings, paint, rust and mill scale from steel. Garnet also permits precise feathering control. A good general outdoor surface preparation abrasive.

Excludes GST
\$55
Inc. GST \$60.50

GARNET 25KG FINE 35/100 3021T (Australian Mined)

Garnet is a gemstone with excellent naturally abrasive properties. This hard abrasive is fast-cutting, low-dust producing and low-consuming, excellent for removing tough coatings, paint, rust and mill scale from steel. Garnet also permits precise feathering control. A good general outdoor surface preparation abrasive.

Excludes GST
\$62
Inc. GST \$68.20

WALNUT SHELLS 20KG 6-100 MICRON 3022T

Walnut Nut shells and other organic materials, don't cause anchor patterns, making them useful for removing dirt, grease, oil, carbon, scale, burrs and paint without changing the underlying substrate. Walnut shells can be an excellent choice for softer surfaces such as wood — they won't cause etching. Walnut shells are one of less abrasive blasting media you can use and are completely biodegradable, making them among the most environmentally-friendly blasting media.

Excludes GST
\$209
Inc. GST \$229.90

GARNET 25KG COARSE 20/40 3023T

Garnet is a gemstone with excellent naturally abrasive properties. This hard abrasive is fast-cutting, low-dust producing and low-consuming, excellent for removing tough coatings, paint, rust and mill scale from steel. Garnet also permits precise feathering control. A good general outdoor surface preparation abrasive.

Inc. GST \$64.90

GLASS BEAD 25KG 106-300MICRON 3025T

Glass beads are used for general cleaning, peening and cosmetic finishing of sensitive metal surfaces; removing automotive paint; brightening grout and removing fungus and calcium deposits from tile; polishing cast iron, stainless steel, aluminium, propellers and turbine blades. Glass Beads are environmentally friendly and can be used in many blast applications to provide a finish with no profile. Use while working with metal, plastic or rubber materials to clean, debur and finish.

FEATURES OF TQ Pro BOTTLE JACKS
Using CNC technology, TQ Pro products are constructed using superior-grade steel and built to premium TQ Pro standards for professional quality and durability. Premium quality large diameter hydraulic steel cylinders are machined with precision tolerances, then treated and polished to minimise wear and extend service life. Incorporating the latest technology in aggressive wiping lips and OD exclusion, the high capability premium quality seal systems efficiently protect internal hydraulics keeping it free from dirt, mud, water, and other contaminants. A lead-free paint finish is applied after a thorough chemical wash to ensure a long-lasting premium finish with a final coat that is oil, grease and dirt-resistant for easy cleanup.
